0-3 credits in electives

24 credits total

Testing Requirements:

TABE test Lang: 560, Math: 557, Read: 567

ACT Minimum composite 20: English 18, Reading 19, Math 19 (minimum scores by subject area)

SAT Minimum Reading: 460, Math: 460, Composite 980 (minimum scores by subject area)

GPA 2.0 on the 4.0 unweighted GPA scale

Since we are such a small private school, we outsource many of our elective and performing arts credits. We utilize the Palmetto Art Center, Circle Arts Academy, and other such programs that we have ourselves examined and praise for their well-rounded classes. We work with the staff at these locations to help ensure the hourly requirement is met as well as the course descriptions. We also encourage our students in independent study and help them build programs that meet their interests. In this case, we utilize curriculums from a variety of sources.

We do not allow our students to earn less than a C in each class. We achieve this through tutoring, pacing adjustments, small class sizes, and adjusting curriculum as necessary to meet the learning style of the students, while still maintaining. We also offer summer school to help students. Although we hold firm deadlines for assignments, we work hard developing relationships with our students to help them achieve greatness. We do have an "honors" program for students who maintain a high grade-point average and perform honors-level coursework.

We also require our students to volunteer for 40 hours within the community. Students may volunteer at any local non-profit approved of by Educational Harbor. Bright Futures scholarship students must have 100 community service hours to qualify.
