Note:

We do not currently offer have staff with *certifications* in special education. We have had *training and experience* in special education. Our environment naturally lends itself to helping those students – personalized curriculum, small class size, individualized attention, tutoring, adjustments in pacing – all of these accommodations are difficult to get in a traditional school setting. We can serve students with high functioning autism / Asperger's, Dyslexia, Dysgraphia, Anxiety, ADD/ADHD, other learning disabilities, English Speakers of other languages, Gifted students, and other related exceptionalities. However, we cannot accommodate certain student which require more specialized training such as severe autism, Emotional Behavioral Disorder or Oppositional Defiant Disorder, or other related diagnoses. We do not have the resources, training, or staff to give these students what they need. |
